# Mission Statement

The mission of the Children's Museum of Skagit County is to provide an interactive learning environment to promote, encourage and increase an understanding of the arts, science and culture among children, youth, families and educators in Skagit County.

# About CMSC

The Children's Museum of Skagit County was founded in 2000, by a small group of parents and community members who sought to enhance the lives of children in Skagit County by providing extraordinary experiences in learning. Through educational exhibits and events, the Museum provides a hands-on learning and explorational experience for children from birth through twelve years old. We strive to nurture learning experiences between children and their families, and to encourage growth through innovative and creative experiences.

Support provided by Lodging Tax Grant Funds
